

STEAMBRACE

European coordination network and activities to embrace a sustainable and inclusive STEAM educational system: the blend of artistic and creative approaches in STEM education, research & innovation

PROJECT CONTRIBUTIONS

STEAMbrace aims to **bridge the current gender gap in STEM fields** with the creation of a **coordination Alliance at European level** and development of numerous networking and educational activities using a creative thinking and an evidence-based approach. The project will provide novel STEAM actions and solutions and scientific findings with an interdisciplinary, inter-regional and multi-actor consortium that will contribute to:

- 1. **Monitor** the level of STEAM education in Europe
- 2. **Boost** the networking and clustering among STEAM stakeholders
- 3. **Develop** cutting-edge STEAM activities and trainings for both students and educators
- 4. **Deliver** best practices, policy recommendations for the sustainable reproducibility of the STEAM solutions
- 5. **Provide** a common digital networking platform for students and stakeholders, to support EC ambitions
